Manhattanville
College

Purchase, New York

An institution for learning, seeking, exploring;

that is Manhattanville.

For one hundred thirty-seven years,
the college has continued to grow;
this year commemorating twenty-five years
at its present location.

This is an occasion
which warrants celebration,
for inasmuch as Manhattanville has grown,
so has its community.

Our experiences
here
have nurtured
our talents
and
our abilities,
and strengthened
our weaknesses,
enabling us
to grow as
individuals.

We have discovered
that we attain our goals
by sharing,
by daring
to allow others
to know us
as we really are.

Those we know reinforce our self-image,

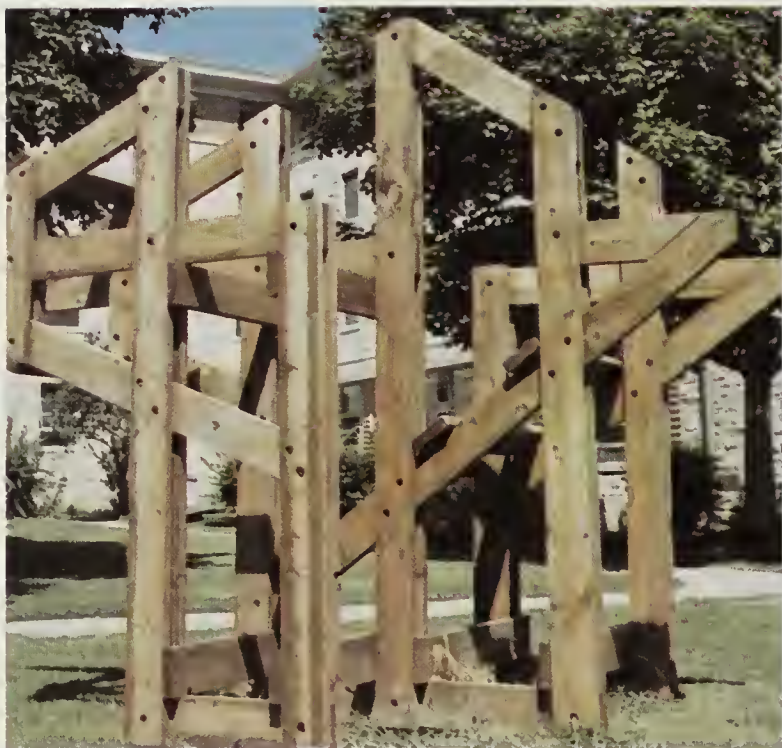

thus enriching
our power
to be
a valuable member
of society.

We, in turn,
confirm the confidence of others.
Our development
is dependent
upon the approval
of other people.

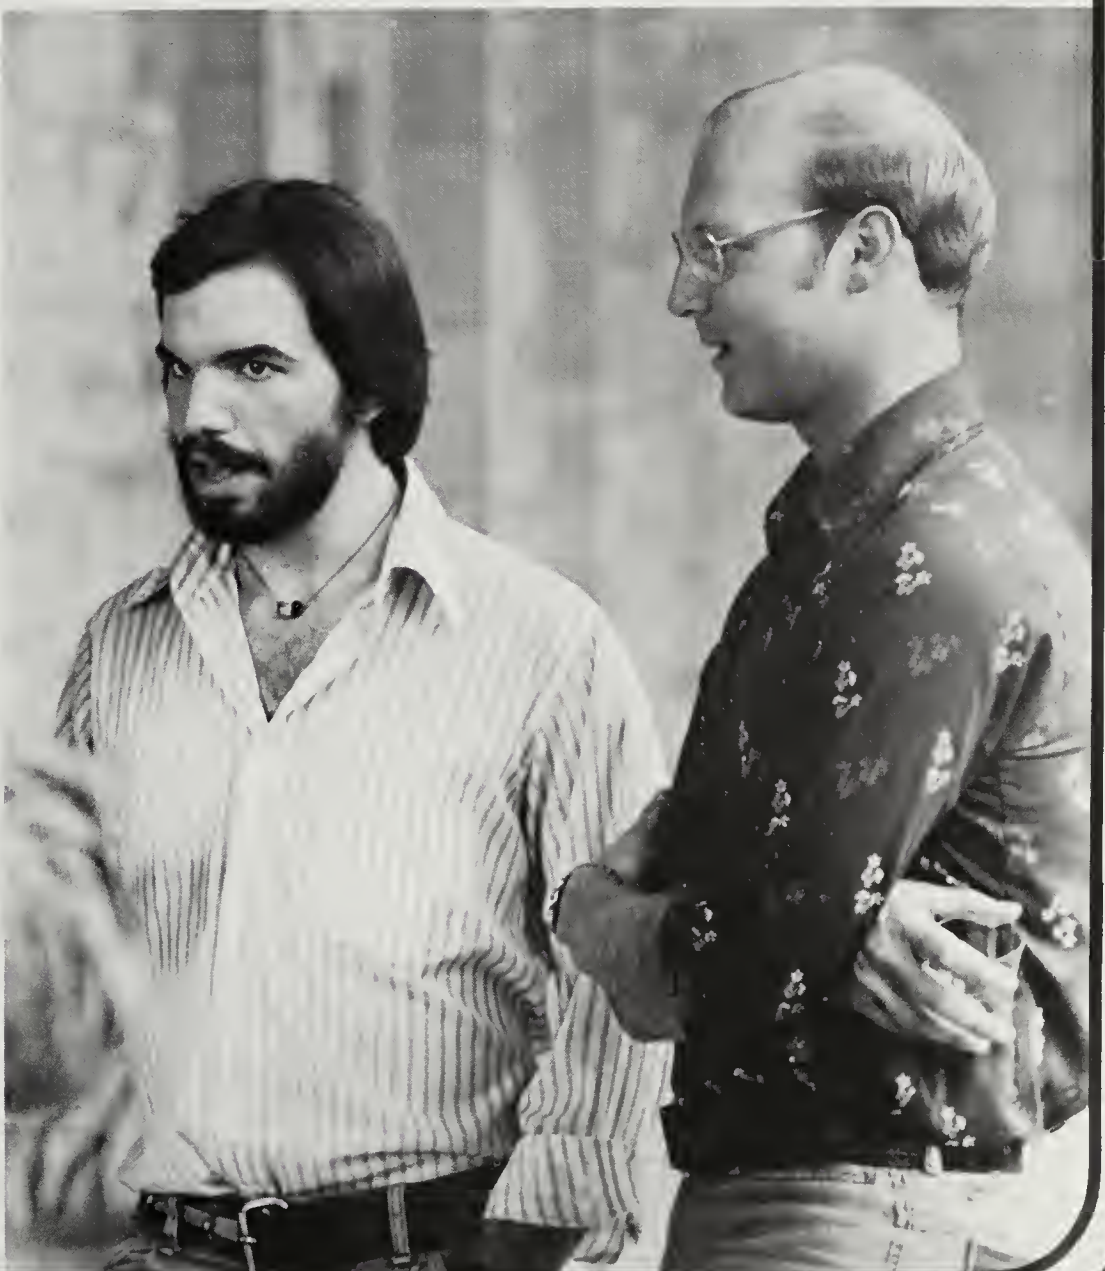

Writers, musicians, poets,
scientists, actors, artists:
we are all of these.
Together, we are one,
ever reaching...
ever growing.

Growing Together

Within our community are the doctors, lawyers, composers, scientists, mathematicians, educators, and politicians of the future. Apart, we are individuals, with separate thoughts and versatile beliefs, each significant in the role we play. Together, we are a prelude of tomorrow.

Much of our growth depends upon the decisions we make as underclassmen. We are now in the process of formulating our futures. Although, at times, it seems very far ahead of us, we are aware that tomorrow will come quickly. The steps that we elect to follow now will form the path leading to whatever lies ahead. Decisions by which we are challenged today play an important role in reaching our tomorrows.

Today, we are preparing ourselves for what is yet to come. We are working, by ourselves and with others. We are learning to cope. We are determining our own futures. We are building our own paths. In so many ways, we continue to grow

The regal atmosphere of Reid Hall is perfect for festive occasions. Manhattanville students utilized the castle during the Winter Weekend, as student government sponsored "Sagittarius", the winter formal. Although there was no snow on the ground and finals were just around the corner, students somehow overlooked these obstacles and created a joyous holiday spirit.

We grow through learning. At Manhattanville we were exposed to many kinds of learning. Academically, we expanded our minds by absorbing knowledge. Emotionally, we learned to be individuals; to like ourselves and realize our own worth. Socially, we learned through others, developing meaningful relationships. Most importantly, we came to discover that the process of learning never stops.

The season of autumn can bring out the beauty of our campus. Students often found that studying out of doors was preferable to being closed within four walls. Nature was something that could be appreciated by all at Manhattanville at one time or another.

On the other hand, there are times when we wondered if the brief period of Indian summer we experienced was compensation for the torrents of rain that followed! Students had grown accustomed to having their umbrellas blown away by 30 m.p.h. winds and tromping through the mud in order to get to class.

Ah well, into each one's life some rain must fall but this is ridiculous!

Convocation Ceremony Commemorates Silver Anniversary

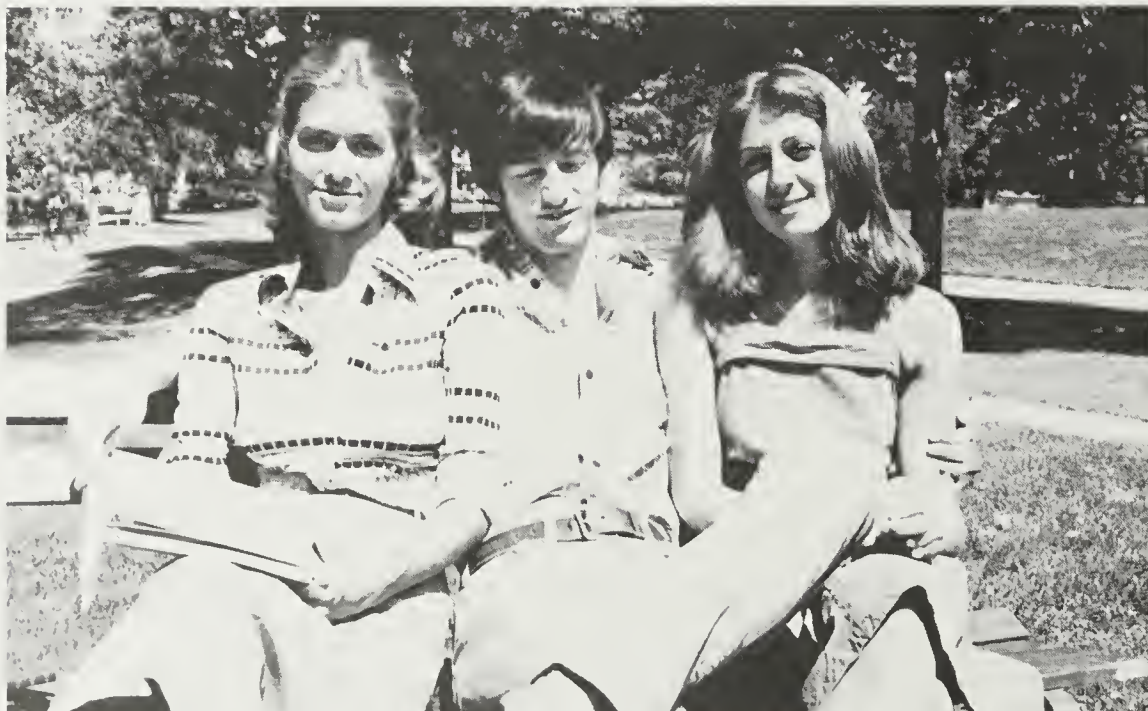

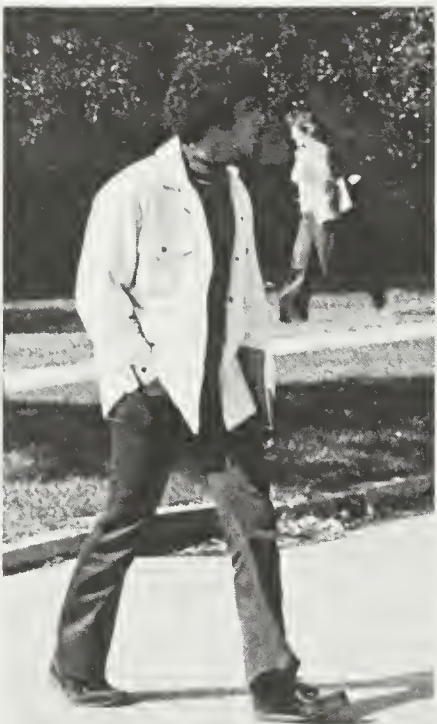

Although convocation is always an inspiring event, this year's ceremony was especially touching. Speakers' themes centered around the College's twenty-fifth year at the Purchase campus, emphasizing how Manhattanville has continued to fulfill its potentials.

This year, for the first time, a M'ville student also presented a speech. Mary Ann Seuffert (Class of '78) related her message to the audience via Antoine de Saint Exupery's "Little Prince", stating: "... one only understands the things that one tames and that this taming takes a great deal of time . . . Like the flower belonging to the Little Prince, the College has and will continue to suffer from many growing pains . . . People have worked hand in hand to **tame** the College . . . When you tame someone or something, it is yours forever . . . "

Not only have we expanded our intellectual growth at M'ville, we have also grown socially. In between studying, writing term papers, preparing projects, and cramming for exams, we found time for fun. Whether we were playing games, joking, partying, or just doing nothing, we came to learn the value of each other.

There is a time for everything including leisure. We at Manhattanville have all realized this need for recreation. We have learned to reach a point when we have to put the book down and take a break. We have learned how to ration our time, in order to allow for studies and for our own personal needs. In doing so we developed within ourselves the art of self-discipline.

We are all different, yet we are a part of the same community. The ambition and potential possessed by each student is vital to the growth of Manhattanville. Because each individual is programmed differently, we have the opportunity to encounter those whose interests vary from our own. In doing so, we discover that although we are all called to different destinies, we have much in common. From this discovery we build relationships, of which some will last and some will fade. But all will influence us in one way or another.

Joel Daunic Athletic Director

We are writing this on a gray November day. The campus, as always, is beautiful. During our five years here, Manhattanville has continued to grow in a positive direction. We have sensed this positive growth in the Athletic Department.

Among enjoyments we have known were the merry, funny, little opportunities that allowed us to get to know people well in this small Manhattanville community. The intercollegiate athletics, intramurals, and the ever improving atmosphere of the Kennedy Building we hope created a great many of these opportunities.

As a sign to us that it is working, each year we gain significantly in willing students and other volunteers. Those great people, whom we never thank enough, we hereby thank . . . again

Field Hockey

Soccer

The House That Arnie Built

From September 1 to October 29, the Manhattanville soccer team trained vigorously and traveled far and wide to engage in the physical and mental game of soccer. The gruelling training paid off as the Valiants achieved a 5-5-3 record.

produce a season better than that of the previous year. (3-9-1.) But, as shown this year, the team turned many cheeks.

So here's to the house of Arnie! Some people thought it was made of straw, but in fact, it was made of steel!

Many skeptics did not believe that the Valiants would You've got to want it-and they did!

Field Hockey

Field Hockey Team is Growing Strong

Led by co-captains Debbie Green and Debbe Spera, the 1977 field hockey team finished the season with an impressive 5-5-4 record. The Valiants faced tough competition this year, taking on Adelphi, C.W. Post, William Patterson, Hartwick, Cortland, and Ithaca. One of the high points of the season was a 2-1 upset victory over Hartwick, a strong up-state school excelling in hockey.

The hockey program at Manhattanville is definitely growing. To boost the program, the team hosted the 1977 NYSAIAW Field Hockey Championship, which brought the top seven hockey schools in the state to Manhattanville. The Valiants played top seeded Ithaca and third seeded Cortland, and although they lost both games, the exposure they got to top quality play was well worth it.

The interest and support displayed this year proved that the team can hold its own against good, solid, competition. The building process is slow, but they are definitely making headway!!!

Women's Basketball

The women's basketball season was both "rocky" and interesting, as well as an educational experience. Despite the loss of last year's top scorer and M.V.P., as well as several other starters, the girls prevailed through a commendable season. Due to schools dropping out of the league, leaving only the toughest competitors, the season became a test for both players and coach, Joel Daunic. The squad, consisting of Sue Roujansky, Gisela Gaines, Helene Bennett, Mary Gordon, Captain Mary Ritt, Ellen Porricolo, Ruth Clark, Biz Joyce, and Manager Marce Davison, developed its skills dramatically, and enjoyed trips to Dartmouth, Colgate and a great visit to Georgetown where they were hosted by Alumnae.

The outlook for 1978-79 is extremely promising. Read next year's Yearbook for the results.

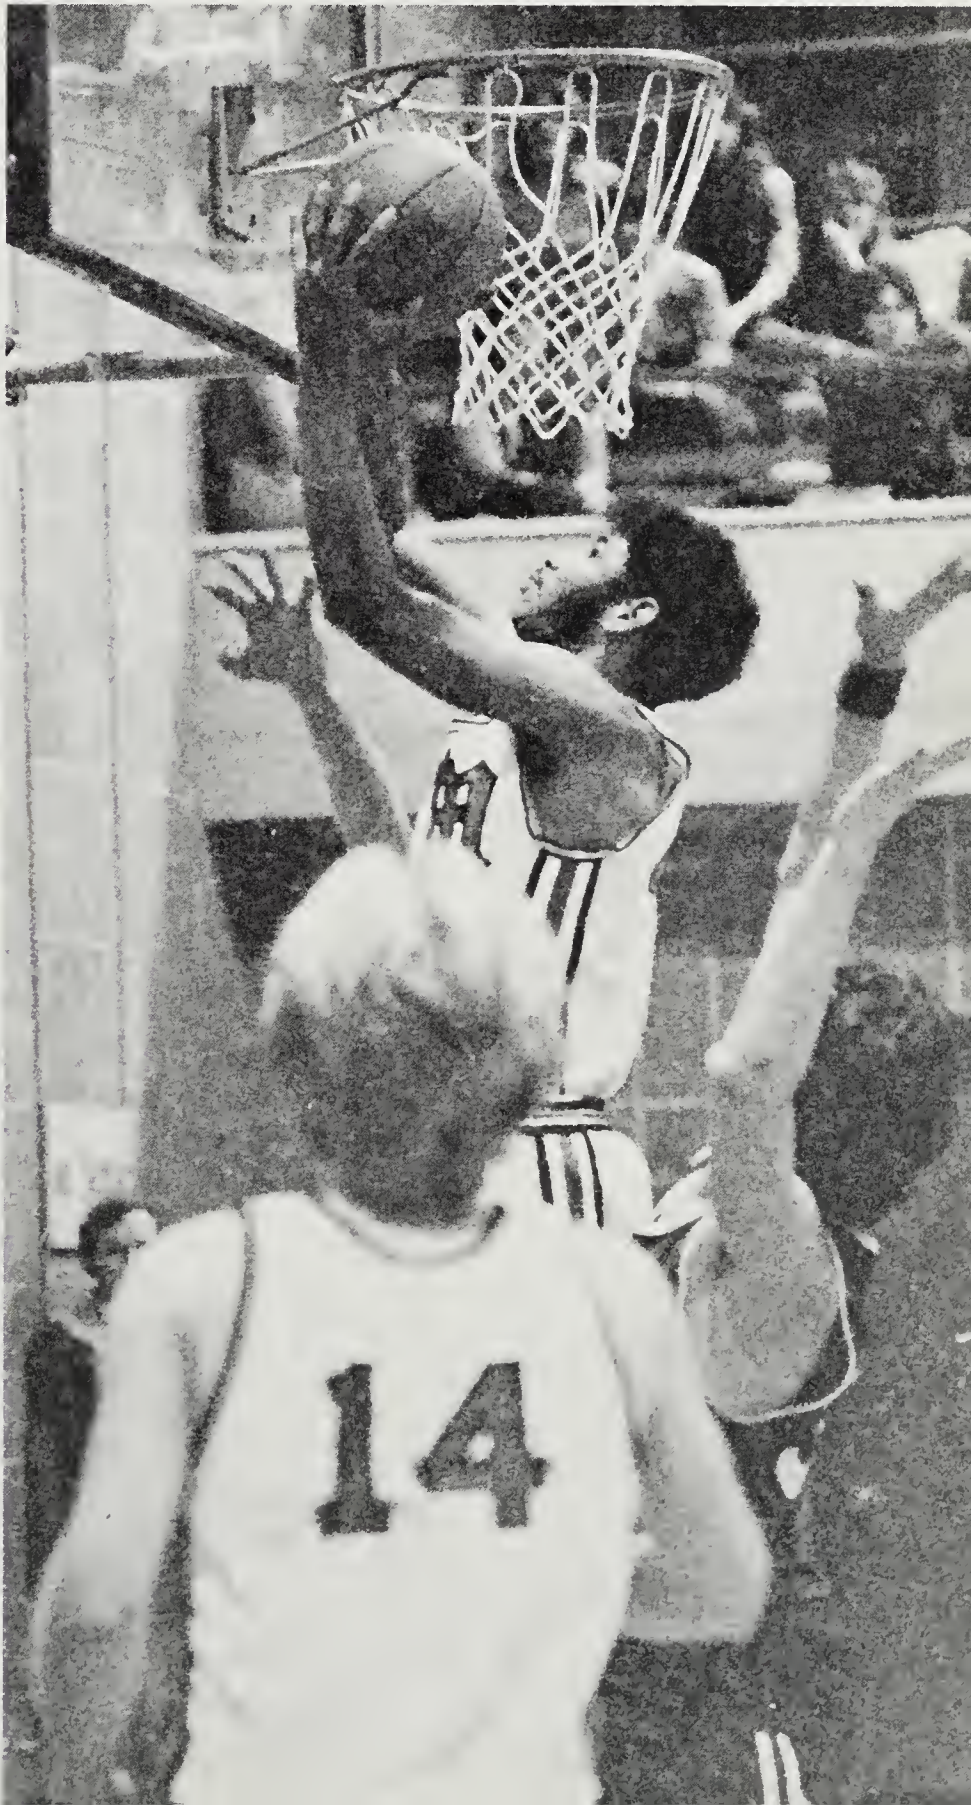

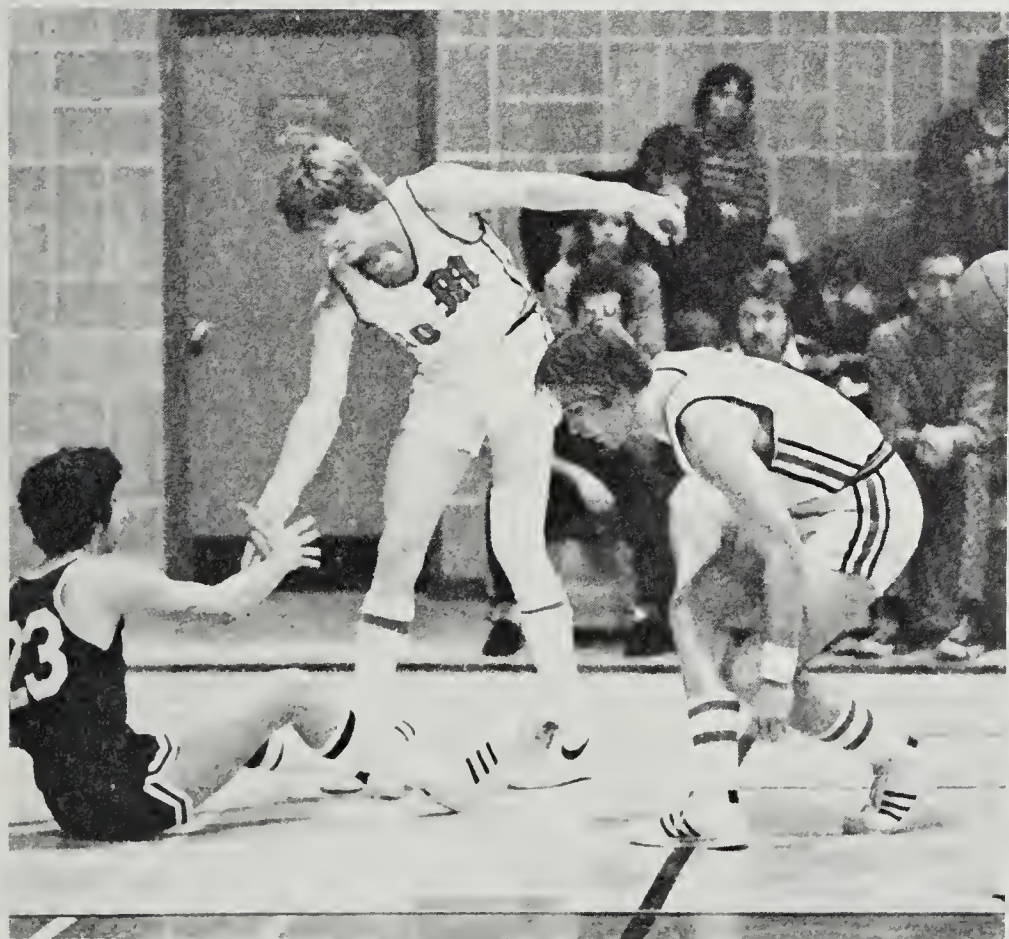

Men's Basketball

The 1977-1978 Basketball team in the third year of its new program was a solid challenger for Division III NCAA national recognition. Men's basketball continued its strong growth pattern, compiling an 11-4 record by mid-season. The team, under Coach Tim Cohane, consisted of 18 players, 11 of which were Varsity, while the balance played a J.V. schedule. Outsized by most teams, the Valiants out-defensed them and used Coach Cohane's extremely disciplined offense to take control of most games. A number of home games were sellouts. All 11 Varsity players saw considerable action with 4 in double figures: Senior Tom Kirkland, Soph Mike Caslin, Soph Gil Amoro, Junior Ted Eyes. The team was young, but experienced, and is spreading the Manhattanville name throughout the Northeastern United States. Great spirit. . . great program. . . a real contribution to Manhattanville campus life.

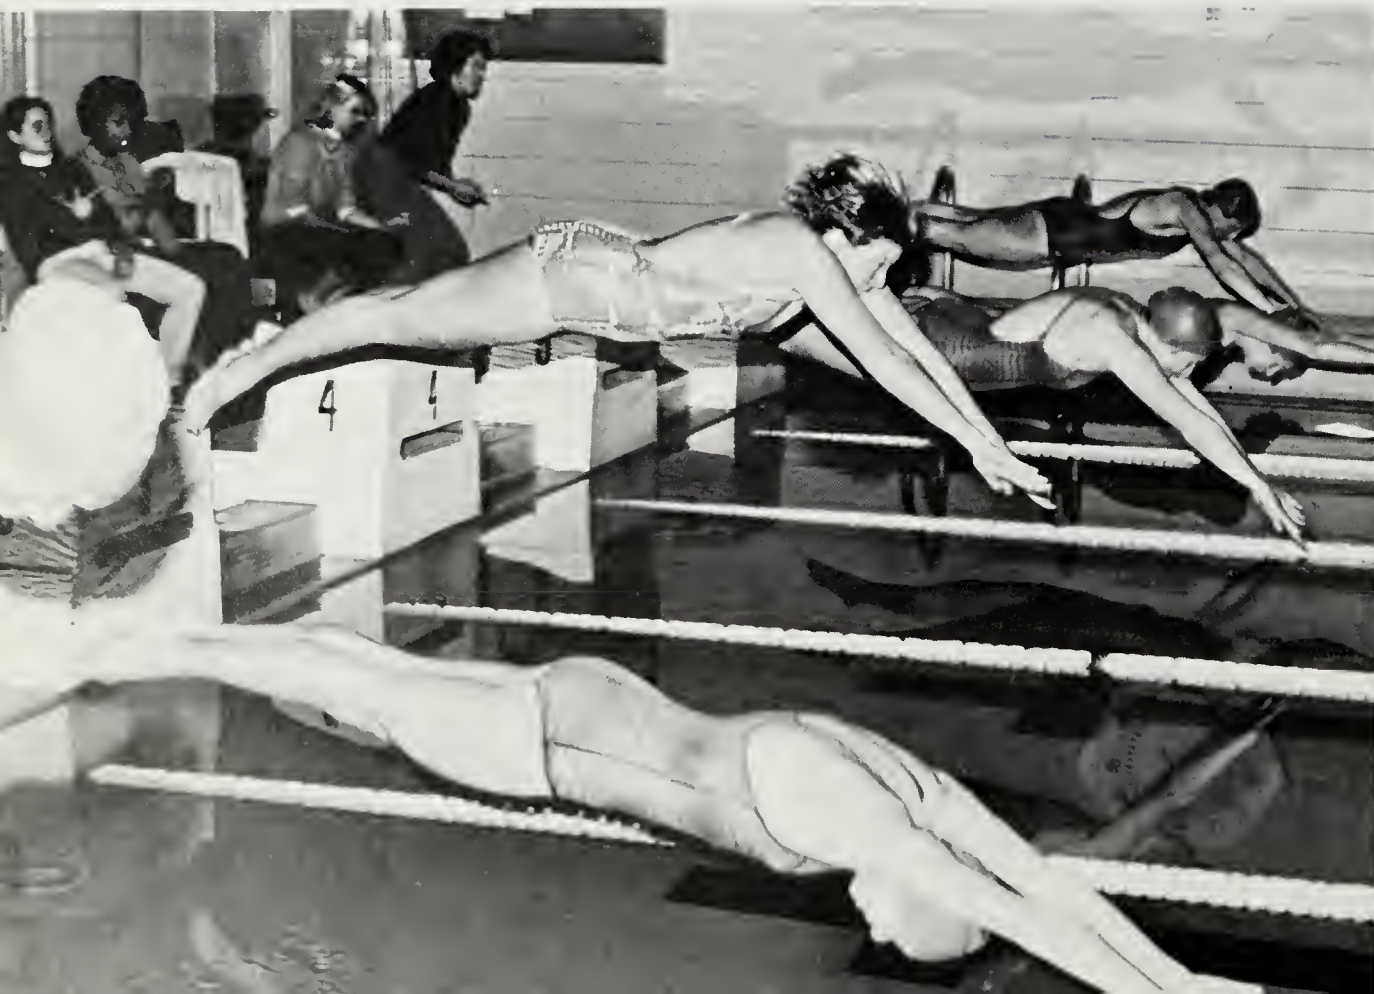

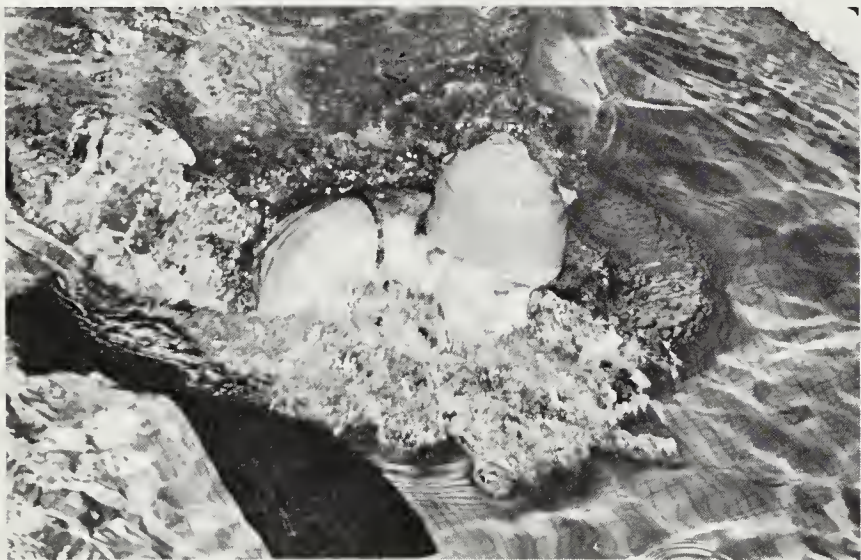

Women's Swimming

The 1976-77 Manhattanville squad was the best in the school's history, compiling a 10-1 dual meet record, winning the Metropolitan Championships, and New York State Championships, placing 8th in the Easterns, and 10th in Small Colleges.

Manhattanville swimmers achieved All-American status in no fewer than 19 events, and the school can boast of a National Championship relay team. Coach John Collins thought that this year's squad could do even better, and with last year's team returning virtually intact plus the influx of ten top freshmen recruits there was good reason to be optimistic. In the meets that followed the team continued to progress and in December again clinched the Metropolitan Championship.

The team's two week training stint on the Island of St. Croix, was a necessary adjunct to the M'ville swimming program. The six hours of intensive training per day in a long 50 yard pool ensured that the squad returned in tip top shape, to face the rigors of an extremely difficult second semester schedule.

As we approach the end
of another school year,
we know that
there are many beginnings
ahead of us.

Through our experiences at Manhattanville, we have each grown, becoming more able to pursue the outside world. The small world of the College has served as a preparation for what is ahead. In it we were secure, learning about people around us, and about ourselves, acknowledging our need for others' assistance, as well as the satisfaction of being independent. We endured the grueling hours of study and experienced the pleasures of recreation. We identified with those with whom we shared mutual interests, learned from those whose interests varied from our own, and came to realize that although everybody is different, we are in many ways very much the same. We are all searching; together we are discovering, and now, as always, together or apart, we are growing.

*Twenty-Five
Years

... And Today

Dedication

With this year commemorating
Manhattanville's silver jubilee,
the staff of **TOWER 1978**
finds it most fitting
to dedicate their publication
to those sisters and teachers
who have been a part of the College
for the entire duration
of its twenty-five years
in Westchester.

For their invaluable contributions,
their boundless devotion and service
over the last
quarter of a century,
we have dedicated this book
(our pride and joy)
with sincere
and heartfelt gratitude.

David Nairne counted on us.

When David had open heart surgery not long ago, he needed six vital units of blood, type O Neg. All of it was obtained, processed and provided by the Red Cross blood center.

We're not the heroes of this lifesaving story (the six wonderful blood donors should get the medals). But we (and other voluntary blood centers) do need your continued support. Blood, you know, doesn't grow on trees. It comes from donors. Like you. And we need more people like you. Call your Red Cross or other voluntary blood center soon. Please.

**We're
